

MEMBERSHIP APPLICATION

I. MEMBERSHIP IN PMI

The regular membership of Plumbing Manufacturers International shall consist of any legal entity of whatever form, including subsidiaries or divisions thereof, having as a principal function the manufacture of a significant quantity of one or more plumbing industry products that are marketed and sold within the territorial limits of the United States and Canada. Regular members, referred to hereinafter as "members," shall have full voting rights and all other rights and privileges of International membership. According to PMI bylaws, "manufacture" shall include the following: the production of industry products by the transformation of raw or prepared materials, or the addition of value to or assembly of industry products from parts manufactured by others if said parts use molds, or tooling, or other equipment supplied, or owned, or specially designed by or for the party doing the assembling.

Annual dues will be assessed for sales volumes within the countries of the United States and Canada.

II. DUES AND ASSESSMENTS

Dues. When multiple companies eligible for PMI membership have common ownership, the largest company pays full dues based on their sales, and other common ownership companies pay 1/2 dues based on their sales; all companies would have a vote.

Special Assessments and Fees. In addition to the annual dues, special assessments and fees may be levied on all members upon recommendation of the Board of Directors and approval by a two-thirds vote of the members present and voting thereon at any regular or special meeting of PMI.

* *The present dues structure is attached and available on the PMI website.*

** ***Dues should not be sent with this application.*** *Upon approval of the application by PMI, dues will be billed. When a new member joins PMI mid-year, their dues will be prorated by 50% for that year. The standard graduated 3-year dues abatement plan will then start the following year.*

Qualification of Membership

Are you engaged in the manufacture of industry products as defined by PMI’s bylaws and stated on the preceding page, with sale of products within the United States and Canada? YES NO
