Office of Wastewater Management, U.S. Environmental Protection Agency (EPA)

Phone: 202 564 2660

[tanner.stephanie@epa.gov](mailto:tanner.stephanie@epa.gov)

Stephanie Tanner is the lead engineer for the U.S. Environmental Protection Agency's WaterSense Program. She is responsible for all technical aspects of the development of labeled products, including setting efficiency and performance criteria as well as managing the testing and certification process.

Stephanie advises federal programs on conformity assessment procedures and has advised several countries on developing water efficiency labeling programs.

Before working at the EPA, she managed a water efficiency program for federal facilities. Earlier in her career, Stephanie worked for the U.S. and German Navies and served during the first Persian Gulf War as a shipboard operating engineer.

Stephanie holds a Bachelor of Science degree in marine engineering from the Merchant Marine Academy and a master's degree in engineering management from George Washington University. Stephanie is a LEED-accredited professional in building design and construction and earned credentials as a certified energy manager from the Association of Energy Engineers.
