Dan Eisenberg is a principal in the Washington, D.C., office of Beveridge & Diamond. He counsels a diverse group of product manufacturers on compliance issues and represents clients in complex civil environmental litigation and the defense of government enforcement actions.

He advises manufacturers on compliance and market access issues, including defense in enforcement actions under state and federal appliance efficiency programs. He also helps clients meet ENERGY STAR and WaterSense requirements, respond to disqualification or delisting decisions, and comply with United States and international energy and water efficiency standards, testing, and labeling requirements.

In addition, Eisenberg assists with energy performance requirements for data centers, regulatory developments affecting electronic products, and sustainability and eco-design requirements, including green procurement, product take-back, and end-of-life obligations in the United States and Europe.

His litigation experience includes electronic discovery, expert witness coordination, and trial preparation for complex product liability and toxic tort cases involving alleged groundwater contamination from a gasoline additive. He also advises clients on product-related legal matters, with a primary focus on the information technology and pesticide industries.

Eisenberg earned his juris doctor, cum laude, from Georgetown University, where he was a member of the Georgetown Law Journal. He earned a bachelor's degree in biology from Cornell University. He is licensed to practice law in the District of Columbia and New York.
