

DOES YOUR NEW TECHNOLOGY PROVIDE SOLUTIONS TO TODAY'S EMERGING PROBLEMS?

Would your new technology benefit by being exposed to contractors, engineers and governmental attendees? Showing how your innovations and ideas will change the face of the plumbing, mechanical, water efficiency or water distribution industries is easily within your trade show budget! Sustainability is no longer just a buzzword and water and energy efficiency have become critical focus areas. The Emerging Water Technology Symposium (EWTS) is an ideal forum to showcase your products, systems and services to engaged participants concerned about water and energy efficiency from across the globe. No other venue provides access to such a diverse group of decisions makers.

THE ONTARIO
DOUBLETREE HOTEL
ONTARIO, CALIFORNIA

MAY 15 - 16, 2018

Co-Convened by

WHY SPONSOR THE 2018 EMERGING WATER TECHNOLOGY SYMPOSIUM

- Meet engaged participants, all focused on meeting new challenges in water and energy efficiency through the application of new technologies and best practices
- Interact with attendees from around the world on emerging issues and solutions in international markets
- Showcase your organization's new products, systems and services to attendees looking for answers to today's water and energy efficiency related challenges
- All sponsorships include a table-top display
- Maximize your exposure with social media ready content for posting/tweeting developed by the EWTS co-convenors

The EWTS Passport Program Drives Attendees to Your Display!

Attendees will be given a passport to be stamped when visiting our EWTS sponsors. At the end of the symposium, attendees who have visited all sponsors and had their passports stamped will qualify for a raffle for a free 2020 EWTS registration and a \$100 gift card!
